

Date: 19-20 November 2018

Venue requirements: Venue tbc. One plenary room + 3 break-out rooms with a capacity of 10-15 people.

Objective: to foster partnerships meant in a broader sense within ERRIN members and between ERRIN and other network members, such as CORAL, EUREGHA, ECHAlliance. Building specifically a H2020 consortium is NOT the ultimate goal of this event. It can be one of the results, but creating partnerships can also be for knowledge exchange, staff exchange, a strategic partnership, advocacy, solving an institutional/regional challenge, etc.

Structure: from lunch to lunch (lunch tbc for both days), two half days. Networking drink at the end of day 1. For the planned speakers and sessions, please consult the draft agenda.

Number of participants: 40 – 60.

Proposed thematic areas to discuss on day #1:

- Digital health: patients' data, interoperability, standards, PM, integrated care (models), AI in healthcare, cybersecurity
- Social care: care models, skill gaps and training needs for carers, innovation in care
- Environmental determinants of health and well-being: cancer, climate change
- Health promotion and prevention

Proposed cross-cutting issues to discuss on day #2:

- Gender
- Ethics
- Sustainability
- Patient/user engagement

Regional contributions expected by 1/10. Please email to elin.martinsson@errin.eu

- **Venue:** if your premises could fulfil the venue requirements and would be happy to host the event both days
- **Proposed thematic areas (day #1):** validate, comment and/or propose new thematic areas. WG leaders will assess the proposals and will try and propose a list that satisfy the participating members.
- **Proposed cross-cutting issues (day #2):** validate, comment and/or propose new cross-cutting issues. WG leaders will assess the proposals and will try and propose a list that satisfy the participating members.

Regional contributions expected by 15/10. Please email to elin.martinsson@errin.eu

- **Inspirational talks:** propose speakers for both the thematic areas (day #1) and the cross-cutting issues (day #2) – max 10 min to kick-off the group discussions.
- **Project good example:** if you have a successful consortium that could present the PROCESS of (H2020) proposal building, tips & tricks. Content of the project should be health-related but not really relevant in this case.

Next steps:

- Draft agenda, registration on the [ERRIN website](#)
- Registration will open once the thematic areas and the cross-cutting issues are defined (after 1/10).

We hope you look forward to this partnering event as much as we do!

ERRIN & Health WG Leaders

ERRIN Health Working Group Partnering Event

November 19-20, 2018

Venue tbd

Time	Draft agenda – November 19. Focus: WHAT?
