Online launch of ERRIN's Annual Cluster Work Plans 2026

Friday 20 February | 10.00-11.30

Each year, ERRIN's 13 member-driven Working Groups shape their priorities and activities through Annual Plans aligned with member priorities, key EU research and innovation developments, initiatives and funding opportunities. Since 2025, these plans have been brought together under ERRIN's Cluster structure, offering a more integrated and strategic overview of our collective work.

During this online session, you will get an overview of the key workstreams and planned activities of each Cluster for 2026, explore opportunities for member engagement, and take part in an interactive Q&A session to ask questions and share input.

10.00	**Welcome & introduction** Astrid Hannes, ERRIN Head of Projects
